

INFORMATIVE

What type of preparation is the „Dr. Köntös BALANCE trace element complex“?

„Dr. Köntös BALANCE trace element complex“ contains zinc, manganese, molybdenum, copper, selenium, vanadium, chromium and boron, which are necessary for the body in a complex, water-soluble form.

What can we use the „Dr. Köntös BALANCE trace element“ for?

- to support the proper functioning of the immune system
- increased physical exertion in case of weakness
- surgeries, post-sickness recovery
- in case of malabsorption against the active substances of the preparation, since the complex fulvavatic form helps absorption
- it has no appetite-boosting effect

What you need to know before taking the „Dr. Köntös BALANCE trace element complex“

Consult your doctor, pharmacist in case you are:

- allergic to any of the ingredients of this product
- you may have an allergic reaction

Effect of the product on the ability to drive or use machines:

- the trace element complex does not affect the sensory organs affecting motor vehicle and machine handling

HOW TO APPLY THE „Dr. Köntös BALANCE trace element complex“?

Always use it exactly as described in this leaflet or as told by your doctor or pharmacist. If you are not sure about the dose, search for your doctor or pharmacist.
